Hevert David Gelis Díaz

Frontend developer · VTEX IO and FastStore

At ITG Globers I worked on the **Chedraui** and **Pepe Ganga** stores on **VTEX IO**: custom React and TypeScript components configurable from the Site Editor, online payments and a focus on performance. Today I keep up with FastStore through my own demo store that customizes the theme, product cards and regionalization.

EXPERIENCE

Frontend Developer Analyst
Nov 2024 – Present

Hypernova Labs → Cochez y Cía · Panama · remote

- Assigned to **Cochez y Cía**, a 100+ year-old Panamanian leader in construction materials, finishes and hardware.
- Migrated **Aludra Ventas Asistidas** from native Java (class-based components) to **React Native**: the app sales staff use on the store floor, with catalog, voice and camera search, quotes and paint tinting.
- Shipped to the **App Store** and **Google Play**, with ongoing support and new features alongside product and design.

↗ App Store · Google Play: Aludra Ventas Asistidas

Semi-Senior Frontend Developer
May 2024 – Oct 2024

ADO Technologies (Scanovate) · Bogotá

- Full migration of the **dashboard** for a digital identity and compliance platform for financial services: customer enrollment, identity verification and fraud detection.
- Six-month project, delivered in full and live in production.
- Reusable components and UI/UX improvements with design and backend teams.

Mid Frontend Developer
Oct 2022 – May 2024

ITG Globers · Bogotá

- **Chedraui** (Mexico, 5M+ downloads, 4.2★): built the login and home screens of the online supermarket app.
- **Pepe Ganga** (Colombia): integrated online payments through the shopping app's payment gateway.
- **Chedraui** and **Pepe Ganga** e-commerce stores on **VTEX IO** Store Framework: custom React and TypeScript components configurable from the Site Editor, and responsive home, PLP and PDP layouts.
- Regionalization by store or region, with prices and availability based on the customer's location.
- Checkout customizations (checkout-ui-custom) and VTEX APIs (Catalog, Intelligent Search, Checkout/OrderForm) and GraphQL.
- Content managed from the Headless CMS, and performance and Core Web Vitals optimization.
- Contributed to **Framework II**, an internal **React Native** framework for building apps from declarative JSON (server-driven UI).

- Web and mobile features for **Bancolombia** and **App Morado** on REST APIs, focused on performance and UX.
- Multi-country agile teams with GitFlow, code review and Jira.

Frontend Developer

Feb 2021 – Oct 2022

Sigefi · Colombia

- Built the entire frontend of **SIGEFI**, an invoicing and inventory SaaS for businesses in Colombia.
- Modules for e-invoicing (DIAN), cash registers and audits, customers, suppliers, inventory ledger, reports, branches and warehouses.
- API integration, deployment and production support.

INDEPENDENT PROJECTS

FastStore Demo

Headless store on VTEX FastStore with Next.js and GraphQL: postal-code regionalization, a currency switcher and a custom product card, fully in Spanish.

github.com/HEVERHD/faststore-demo

Masterpiece CTG

Clothing and accessories store with 100+ products, WhatsApp ordering and a panel for the owner to manage the catalog.

www.masterpiecectg.com

Majestic Luxe Jewels

Handmade jewelry e-commerce with online payments, nationwide shipping and an editorial luxury look.

www.majesticluxejewels.com

Dulces Detalles ER

Store for custom gift arrangements for birthdays, anniversaries and special dates, with orders to two branches and a manageable catalog.

www.dulcesdetallescartagenaer.com

Sistema de reservas online

A product I built and tailor for each business: customers book in seconds and get confirmed on WhatsApp. No calls, no queues.

frailinstudio.com

CataPlan

Food, culture and adventure experiences in Cartagena, curated by locals and bookable from your phone.

cataplan.vercel.app

Internal systems

Taller JCA: Management system for an auto body and paint shop. Club Mercancías: Customer club platform: benefits, products, payments and reports.
